Testing environment

Operating system:	Windows 11 pro, (64-bit)
Browser:	Google Chrome Ver 115...171(64-bit)
Operating system:	MacOS, Ventura
Browser:	Safari, Version 16.5

Recommendations

- There is no login system when entering the application ([QATC-814688](#));
- There are no user profile options where the user can see all the information ([QATC-814686](#));
- There are no options for sharing the added recipe with other via social media platform([QATC-814705](#));
- There is no copyright information at the footer of the applications([QATC-814685](#));

QA team

Company:	A1QA
QA manager:	Dalia Dzhaafar
QA engineers:	Md. Mahirbin Foysal

Additional information

Testing dates:	11.08.2023 - 18.08.2023
Time spent:	23 hours

Forkify

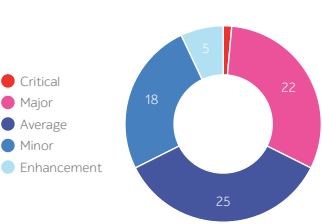

Product version: 1.0

General quality analysis

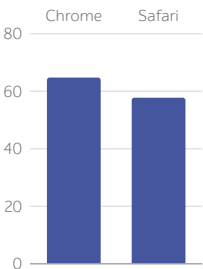

The overall quality of the application can be estimated as **Below Medium**. The total number of defects is [71](#). Functional defects prevail, [1](#) of them have the Critical severity, [22](#) defects have Major and, [25](#) gain the Average severity. The majority of defects is opened for modules "[Add Recipe](#)" and "[Bookmark](#)". A detailed quality analysis is presented below.

Detailed quality analysis

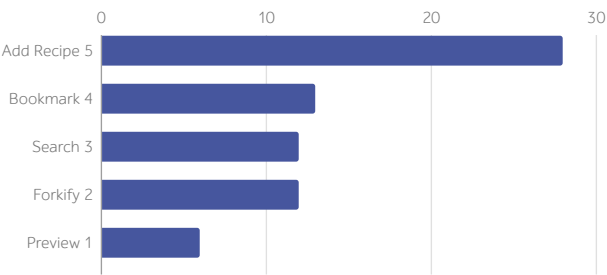

The total number of defects by severity

The chart shows the statistics of defects by the degree of the negative impact they have on the application. Almost **1.41%** of issues have [Critical](#) and **30.99%** [Major](#) severity. **35.21%** [Average](#) defects prevail.

The total number of defects by components

The chart represents defects quantity on separate modules. The majority of issues actual in **"Module 5" Add Recipe** , and in **"Module 4" Bookmark**.

Quality of separate modules

Module	Quality	Comments
Preview	<div>High</div>	The quality of this section can be estimated as High. Only 6 defects were found here. The main issue (QATC-814701) concerns Functional: Prep time is displayed only minutes instead of 'Hour' 'Minutes' 'Second' when more than 60 minutes. Another notable defect (QATC-814554) Preview a recipe in the maximized window then minimized the window is displayed with a cross button. The list of the issues actual for module 'Preview 1' here.
Options	<div>Medium</div>	The quality of module is estimated as Medium. In this section Two defects were 12. The most important problems are following: There is no list to display all the created recipe (QATC-814406). Furthermore, In the minimized window when opening a recipe disappeared the header (QATC-814645). The list of the issues actual for this module 'Forkify 2' is here.
Search	<div>Medium</div>	In this section 12 defects were discovered during the testing, 2 of them have priority Major. The most important defects are Recipes that contain this ingredient do not appear when searched by ingredient (QATC-814718) and The Search bar is case-sensitive when searching by uppercase and lowercase (QATC-814666). The complete list of defects in module "Search 3" can be found here.
Bookmark	<div>Below Medium</div>	In general, the quality of the module can be estimated Below Medium. The number of defects in this module 13. The priority is Major and affect the quality of the module vastly. For example, Bookmark recipe can't be unbookmarked when clicking on the option it bookmarks that recipe multiple time (QATC-814857) and The bookmarked recipe is not displayed in the main window when clicking on it (QATC-814853) Follow the link to view defects found in this module "Bookmark 4".
Add Recipe	<div>Low</div>	28 defects were opened in this module. The most significant defect here is After adding a recipe and then trying to add another recipe it's displayed 'recipe was successfully uploaded' when clicking on the 'Add Recipe' menu (QATC-814485). Also Add recipe menu is displayed as 'Wrong ingredient format!' when try uploading a recipe with an incorrect format ingredients (QATC-814488). Three defects are connected with GUI: (3). For more details about defects found in "Add Recipe 6" module follow the link.
